

Bankers Association  
Of Trinidad & Tobago

# BANKING WEEK

Monday 17th - Friday 21st January, 2011

## "PARTNERING WITH YOU FOR A NEW ECONOMY"

### COMMUNITIES CONTINUES...

We hope by our participation we will help increase awareness of these vital services to our communities and society.

### EMPLOYEES

With regard to our employees, there is a great amount of focus on high standards of performance and ethical behaviour, while honing leadership and talent development. We also entrench a number of feedback mechanisms, which afford our staff every opportunity to share their insights. It is important that we recognise the value of our employees and the role they play in our success and day-to-day operations. Our staff upholds the values of honesty, integrity and equality. They are trained and specialise in customer service care, devotion and innovation.

They are the mechanism behind the well-oiled machine and their contribution is priceless.

### SOCIETY

BATT has always stepped up to accept the mantle whenever the opportunity to serve the community and society at large becomes available. Some initiatives include the protection of fresh water and providing clean drinking water, the protection of natural habitats and the rights of peoples, as well as the safeguarding against child and forced labour. It is our responsibility to be environmentally conscious and take these considerations into our purchasing and subsequent usage processes.

Our support in the world of sport, music and culture – to name a few – impact greatly on our society. We hope to uplift and empower our citizens to create a bright and better future as a nation.
